EDUCATION

University of Perpetual Help System DALTA - Molino Campus

Bachelor of Science in Computer Science, Specialization in Data Science

Bacoor, Cavite

2023-Present

- Dean's Lister, 2023-Present

University of Perpetual Help System DALTA - Molino Campus

Senior High School

2021-2023

- Graduated with Honors, 2023

CERTIFICATIONS

2026: IT Specialist - Python, Certiport; Associate Data Analyst, DataCamp

2025: Data Analytics Essentials, Cisco Networking Academy; Cloud Computing Fundamentals, IBM SkillsBuild; Data Fundamentals, IBM SkillsBuild; Linux Essentials, Cisco Networking Academy; Operating Systems Basics, Cisco Networking Academy; Introduction to Cybersecurity, Cisco Networking Academy

2024: IT Specialist - Networking, Certiport; IC3 Digital Literacy Certification GS6 Level 1, Certiport

TECHNICAL SKILLS

Programming & Databases: Python, SQL, PostgreSQL, MySQL

Web Development: React, Vite, Node.js, Express, REST APIs, JWT

Data & Analytics: Pandas, Scikit-learn, Excel, Power BI, Tableau, ETL, Data Warehousing

Systems & Cloud: Windows, Linux, virtualization, cloud computing, IaaS, PaaS, SaaS

Networking & Cybersecurity: LAN/WAN, TCP/IP, network protocols, network security, cybersecurity fundamentals

Tools: Git/GitHub, Visual Studio, VS Code

PROJECTS

Global Supply Chain & Logistics Delay Tracker

2026

Tools: Python / Pandas / Parquet / CSV / ETL / Data Warehousing

- Developed an ETL pipeline to clean, validate, transform, and store logistics data for shipment-delay and shipping-line performance analysis.
- Implemented data-quality checks for invalid and negative shipment durations and produced structured analytical outputs for reporting.

InternTrack – OJT / Internship Application Tracking System

2026

Tools: React / Vite / Node.js / Express / PostgreSQL / Supabase / JWT

- Built a full-stack internship application tracker with authentication and CRUD functionality.
- Added search, filtering, sorting, dashboard statistics, and responsive design.
- Developed and tested REST API endpoints for user and application management.

Customer Churn Prediction Using Machine Learning

2025

Tools: Python / Pandas / Scikit-learn / RapidMiner / Matplotlib

- Built and evaluated Decision Tree, K-Nearest Neighbors, and Random Forest models to predict telecommunications customer churn.
- Achieved approximately 80.45% accuracy with Random Forest and identified tenure, monthly charges, total charges, and senior-citizen status as key predictors.

HONORS & RECOGNITION

- Dean's Lister, University of Perpetual Help System DALTA, 2023-Present
- Graduated Senior High School with Honors, 2023
- Graduated Junior High School with High Honors, 2021

ADDITIONAL

Technical Interests: Data analytics and data science, software development, cloud computing, systems administration, networking, cybersecurity
